PROFESSIONAL SUMMARY

Java Backend Engineer with **2+ years** of experience building **event-driven microservices**, **REST/gRPC APIs** and real-time messaging systems for capital-markets and fintech platforms used by hundreds of thousands of traders and investors. Hands-on with **Java**, **Spring Boot**, **Kafka**, **PostgreSQL**, **MSSQL**, **Redis**, **Docker**, **Kubernetes/OpenShift** and **AWS/Azure**, with a focus on performance optimization, distributed systems, CI/CD and production observability.

TECHNICAL SKILLS

Languages & Frameworks: Java, SQL, Spring Boot, Spring Data JPA, Hibernate, Maven, Gradle
Backend & Messaging: Microservices, REST APIs, gRPC, Protobuf, Multithreading, Apache Kafka, WebSockets
Databases & Caching: PostgreSQL, MSSQL, Snowflake, Redis, Garnet, Caffeine, Stored Procedures, Transactions
Cloud & DevOps: AWS, Azure, Docker, Kubernetes, OpenShift/OKD, Azure DevOps, Argo CD, GitOps, Git
Observability, Testing & Security: Spring Boot Actuator, Prometheus, Grafana, ELK, Swagger/OpenAPI, JUnit, Mockito, JMeter, Spring Security, JWT, AES/GCM, SonarQube, Trivy, SBOM
Engineering Practices: System Design, Design Patterns, Clean Architecture, Agile/Scrum

EXPERIENCE

Software Engineer Geojit Technologies	May 2024 – Present Kochi, Kerala
---	-------------------------------------

- Develop and maintain **30+ REST and gRPC APIs** in Java and Spring Boot for high-volume trading, onboarding and messaging workflows, documented with **Swagger/OpenAPI**.
- Build event-driven **Kafka microservices** with **multithreaded consumers**, processing **100K+ records/day** across real-time trading and messaging workflows.
- Reduced database load by **30%** through **Redis caching** and query optimization, improving API throughput; secured services with **Spring Security and JWT**.
- Improved automated test coverage from 29% to **70%+** using **JUnit and Mockito**, while resolving code-quality findings and security vulnerabilities identified by **SonarQube and Trivy**.
- Engineered data pipelines migrating **40M+ records** from **MSSQL** through **AWS S3 and AWS Glue** into **Snowflake**, resolving JDBC, IAM and CloudWatch issues.
- Deploy and operate **Docker and Kubernetes/OpenShift** services on **AWS/Azure** via **GitOps CI/CD** (Argo CD), with **Java 8/17 to Java 21** modernization for OKD, monitored via **Prometheus/Grafana/ELK**.

KEY PROJECTS

SPARC – Trading Back-Office System	<i>Java, Spring Boot, Kafka, Redis, MSSQL, Azure</i>
---	--

- Built **multithreaded** Spring Boot services for **200K+ active traders** with Kafka, Redis caching and MSSQL.
- Developed document-processing services with **Azure Document Intelligence** for automated data extraction, proof comparison and signature comparison.
- Integrated **Digio APIs and webhooks** for In-Person Verification (**IPV**) workflows with request validation, status mapping and persistence.

GEMS – Geojit Enterprise Messaging System	<i>Java, Spring Boot, Kafka, gRPC, WebSockets, PostgreSQL, Karix</i>
--	--

- Modernized the legacy Mercury messaging app into **Java 21 / Spring Boot** services for real-time dealer-client chat.
- Built a **WebSocket-based** dealer console and **WhatsApp** chatbot, integrated with **Kafka** and **gRPC/Protobuf**.
- Designed **PostgreSQL** persistence and event-driven processing for high-volume messaging workflows.

FundsGenie – Mutual Fund Platform	<i>Java, Spring Boot, JPA/Hibernate, Kafka, Docker</i>
--	--

- Built portfolio APIs for **300K+ investors** using **Spring Data JPA/Hibernate**, with Kafka-driven transaction and NAV update workflows.
- Optimized database queries and JPA access patterns to improve API performance under concurrent workloads.

EDUCATION

B.Tech, Electronics and Communication Engineering – MES College of Engineering	2019 – 2023
---	-------------

TRAINING & CERTIFICATIONS

Java Full Stack Development Training (8 months) – QSpiders, Kochi
NISM Series VII: Securities Operations and Risk Management – NISM
Microsoft Copilot: Productivity Enhancement – LinkedIn Learning
